

Medical Bill Review Services, built on customized solutions to deliver maximum savings

Optimizing savings

Leveraging our expert team and breadth of industry connections, Guardian is able to deliver maximum savings to our clients through:

Layering PPO Networks, customized for each specific need

Operating as a standalone entity from medical networks, focusing directly on client needs

Customized workflows, embedded into client operations

Robust credentialing of all providers

Personal bill review by experienced industry professionals

Customizable technology solutions

We understand that providing an efficient, easy to use platform to connect with our clients is key in ensuring smooth transfer of data, embedded as part of your workflow.

Our software solutions easily integrate with every major claims management platform, allowing our team to quickly and thoroughly analyze bills and identify savings.

Leveraging our technology, we are able to eliminate many of the administrative burdens our clients face, including:

- Check processing
- Audit & Compliance reviews
- Coordination of pre-authorization forms

Flexible offerings for a broad client base

Cost containment solutions are becoming increasingly vital to the overall operations of business to help support a proactive risk mitigation strategy and overall goal of maximizing savings.

Our customizable services are able to address these cost containment needs across a variety of business classes and geographic footprints, with team members available across the United States and United Kingdom.

Our team has continued to set industry standards for medical bill review in the U.S. Workers' Compensation claims industry, leveraging their years of experience and network of connections to achieve optimal savings.

Additionally, we support the needs of:

- Self-funded Payers
- International Payers
- Out of Network Bill Review
